

Permit 2007-023

Field Name	Field Value
Name	William J Davis
Organization	University of Akron; Department of Biology
Phone	330-644-1343
email	wjd6@uakron.edu
Web_Address	
Renewal	Yes
Permit_Number	2007-012
Activity	Research
Project	Environmental Impact of Akron's Rubber Industry
Dates	February 1, 2008 to February 1, 2009
Group_Size	2
Research_Area	Yes: Beefy's Woods, Oak Forest
Sensitive_Area	No
Other_Areas	No
Building	No
Prep_Work	
Sampling_Collecting	Yes
Sampling_Methods	I will be collecting small pieces (<1g) of lichen thalli with a pocket knife for better identification of species and verification of identification using chemical tests. I will also be removing entire lichen thalli from several trees in both Beefy's Woods and the Oak Forest in order to conduct C:N ratio and chemical composition analyses. This is not destructive to the trees, but the lichen thalli are destroyed.
Agreement	Accept
