Renewal	No
Permit_Number	2011-017
Activity	Education
Project	Freshwater Ecology 3100:427
Dates	Sept 1, 15, 29
Group_Size	14
Research_Area	Yes
Garden_Pond	Yes
Sensitive_Area	Yes
Bath_Pond	Yes
North_Fork	Yes
Other_Areas	No
Building	Yes
Prep_Work	projector, dissecting microscopes
Sampling_Collecting	Yes
Sampling_Methods	We will use a plankton net, dip nets, kick seine, and sample bottles. Triplicated samples will be collected.
Description	We will be sampling water and surface sediments in North Fork, Garden Pond, and Bath Pond for various aquatic organisms (bacteria, algae, benthic and planktonic invertebrates) as well as measuring several limnological parameters (water temperature, turbidity, conductivity, pH, phosphorus). We will be preserving samples for later processing and analyses in the lab. Our goal is to describe the diverse aquatic habitats of BNP and contribute to the existing lists of species found there.
