

**Permit 2017-007**

Name:

Markus Vogl

Department or Organization:

University of Akron - Art

Email Address:

[mvv@uakron.edu](mailto:mvv@uakron.edu)

Are you requesting renewal of a previously approved permit applicaton?

No

Type of activities at The University of Akron Field Station and Bath Nature Preserve  
Research

Title of project or class name and course number:

in silico et in situ: earthworks in the age of voxels

Date/Dates requested:

May- October

Number of people in group:

2

I am requesting permission to use a Research Area.

Yes

I am requesting permission to use a Sensitive Area.

Yes

I am requesting permission to use areas outside of the designated Research or Sensitive Areas.

No

I would like to use the Martin Center for Field Studies and Environmental Education for this prop...

Yes

Will the activity involve destructive sampling/collecting?

No

Which Research Areas?

18 Acres

Beefy's Woods

Garden Pond

Grandview Alley  
Round Top  
South Woods

Which Sensitive Areas?

Bath Pond  
Garden Bowl  
North Fork  
Tamarack Bog / Wetland

Provide a brief description of (1) your proposed activities, (2) goals, and (3) impacts of your u...

The project explores site-specific earthworks supported by the fields of computational and biomimetic design. The proposed project will create 3D printed sculptures designed from 3D scans of objects in nature and rather than displaying the design results in a gallery environment, the sculptures get returned to the natural site they were inspired from.

The goal is to install artworks throughout the park that also function as wildlife habitats.

Parkgoers will be able to interact with the work in person and online.
