Projector and screen. Tables and chairs for ~15 students.

Provide a brief description of (1) your proposed activities, (2) goals, and (3) impacts of your u...

We will use the field station for herpetology lectures and field outings. The field outings aim to expose students to the diversity of reptiles and amphibians living in the various habitats of Bath Nature Preserve and to teach a variety of techniques for capturing, handling, and identifying these animals. At times, various live-capture traps will be placed in Garden Pond, Hidden Pond, and Windhover Pond (Steiner Woods) for 1-2 days to capture turtles and amphibians.

By checking this box, I agree to the above terms and state that all of the above information is c...
