Yes

Will the activity involve destructive sampling/collecting?

Yes

Which Research Areas?

Beefy's Woods

Garden Pond

Please indicate any preparation or set-up you will need in the Martin Center for Field Studies an...

n/a

Please explain how the material will be collected (including equipment), and an estimate of how much material will be collected.
15-20g of moss will be hand collected

Provide a brief description of (1) your proposed activities, (2) goals, and (3) impacts of your use.

Summer camp participants will each collect a small amount of moss near the Martin Center for Field Studies building. The moss samples will be used to create habitats for tardigrades. There is no expected impact on the nature preserve, as the sample amount is very small and all children will be supervised by adults from the Biology or Education Departments during collection.

By checking this box, I agree to the above terms and state that all of the above information is correct.
